## PROJECT INTENTION

### Epic Heroes: A Grand Visual Spectacle

With the hero genre's rising popularity across various platforms, including television and OTT services, we are dedicated to developing a grand hero series that leverages the technical capabilities of Unreal Engine.

This considerably enhances our visual storytelling and direction, allowing us to align with contemporary trends and exceed the usual genre limits with innovative strategies.

# SYNOPSIS

(season1-2)

Scott, a part-time worker at Zero City's small dumpling shop, inadvertently picks up a Geostone while delivering dumplings.

This mysterious stone attracts a space monster to Earth, aiming to harness its power. Initially a hindrance to space police officer Lisa, Scott proves himself by using the Geostone to save her from the monster.

Witnessing Scott's bravery, a former Rise Man, V, grants Scott a Rise Spark, enabling him to transform into Rise Man and protect Earth from various space monsters targeting the Geostone's power.

This marks the beginning of Scott's journey as the giant hero, "Hero Riseman."

# SYNOPSIS

(season3-4)

In the midst of the peaceful days of Zero City, Scott faces a new challenge when a mysterious object, Technoka, crashes on Earth, unleashing the mechanical monster Helborg.

Unable to transform due to a contaminated Rise Spark, Scott is helped by Carrie from planet Techno, who upgrades his device, allowing him to become Riseman Techno. Together, they embark on a quest to locate the fallen Technoka.

As Scott and his companions assemble the Technokas (Powers, Speeden, Defender, Intel, and Stones) they prepare for a renewed battle against a stronger Helborg, who captures Carrie. Scott, transforming into Riseman Grand Form, defeats Helborg, demonstrating courage and the power of unity.
