---------------	---------------	------------------	-----

Season4

Length	5.5min * 26ep	Launching	TBC
---------------	---------------	------------------	-----

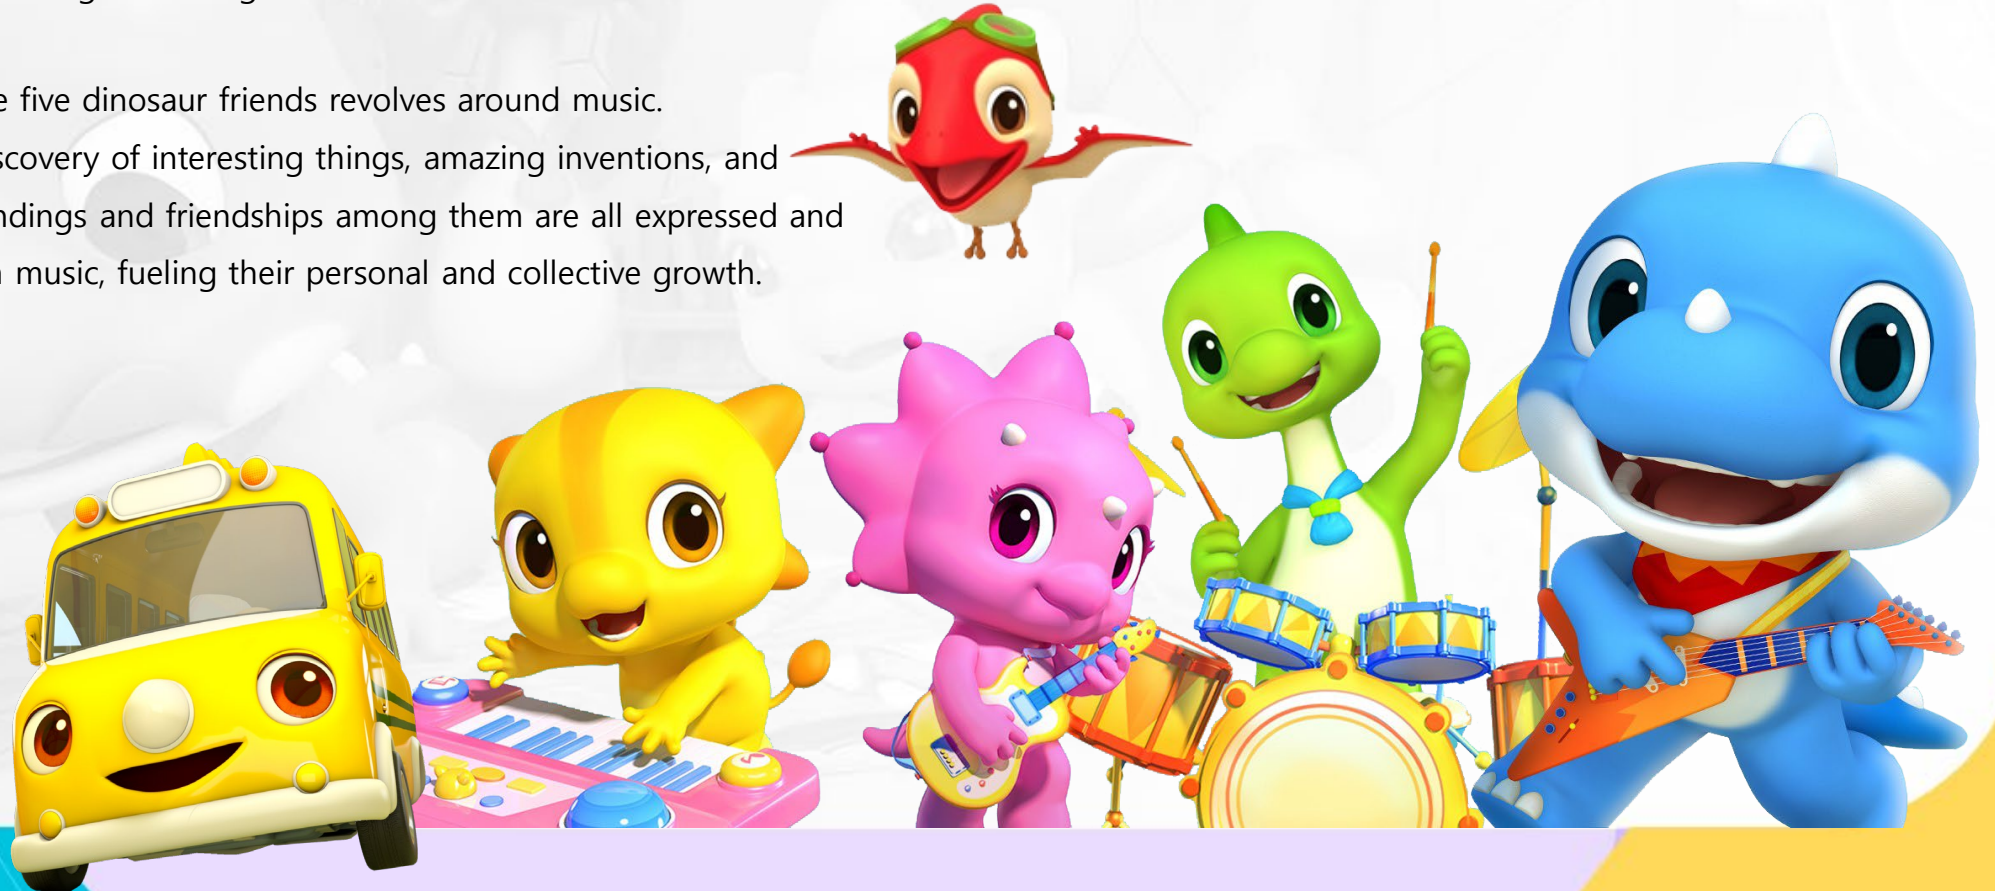

Our children's first dinosaur friends!

Kuang, Carrie, Pico, Greeny, and Tobi are the best friends in Dino Village.

Although they have different personalities and appearances, it is this shared love for music that brings them together to form the Dino Band.

The world of these five dinosaur friends revolves around music.

Joyful play, the discovery of interesting things, amazing inventions, and even misunderstandings and friendships among them are all expressed and navigated through music, fueling their personal and collective growth.

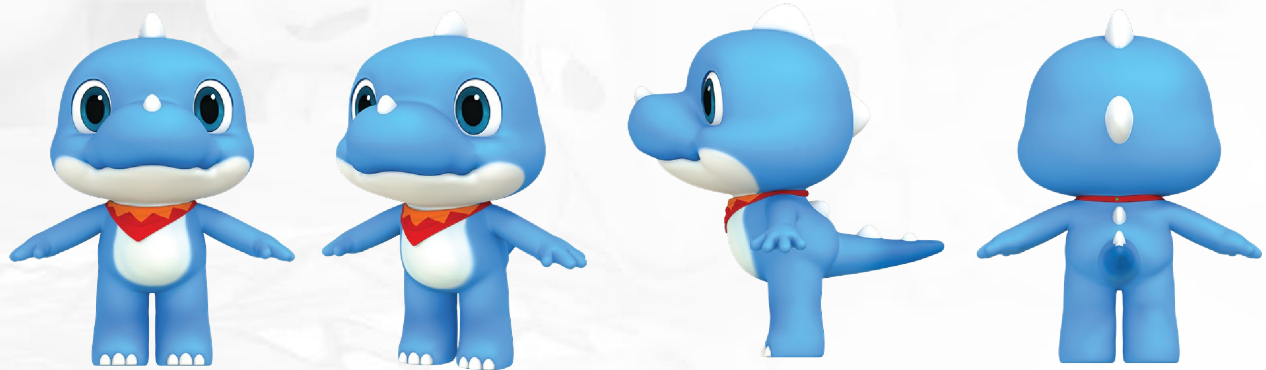

[KUANG] Tarbosaurus

Faster and stronger than anyone

He enjoys toys, friends, play, and adventure, and he is curious and daring in his areas of interest.

He is proactive in satisfying his curiosity, regardless of the means. However, outside his preferred field, he remains indifferent. He never becomes disheartened by his mistakes or failures.

[CARRIE] Triceratops

The spirited girl of Dino Village

Carrie is very smart, careful, brave, and always ready to take action. She often steps in to help balance the actions of Kuang, who is always on the go but sometimes jumps in too quickly, and Greeny, who is very careful and sometimes too slow to act.

This ability to mediate between her friends who are either too eager or too cautious shows her strong problem-solving skills. Because of this, Carrie plays a key role in helping her friends work through their problems, making her a crucial member of the group when they face challenges.

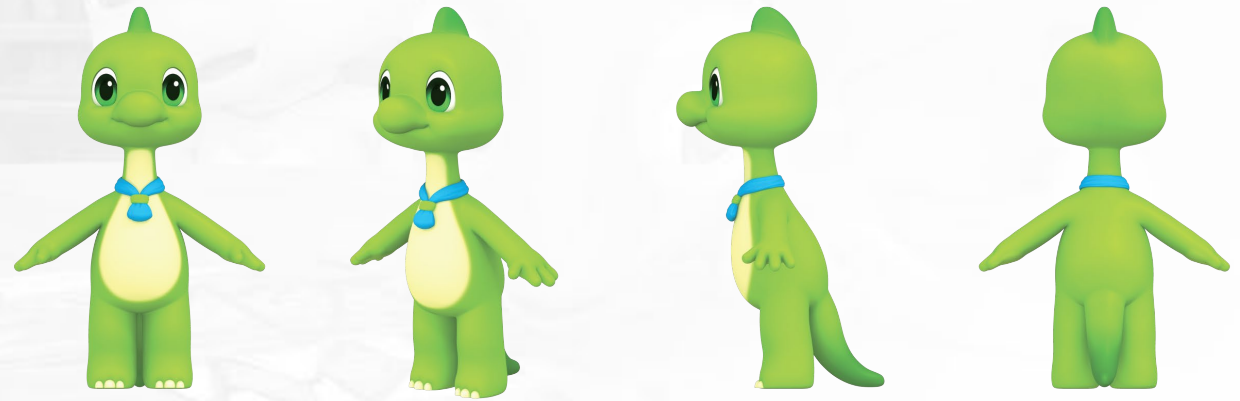

[GREENY] Brachiosaurus

Thinks deeply and acts with caution

Greeny stands out as the most thoughtful, affectionate, and cautious friend among them all. Consequently, Greeny prefers not to be pressured into solving problems.

With Kuang's high activity level, Greeny may appear slow by comparison. However, it's not a matter of being slow; it's simply caution. In reality, when Greeny takes action, they demonstrate bravery surpassing that of anyone else.

[PICO] Pinacosaurus

The cute youngest and a foodie with a slim body

Pico reigns as the most adorable resident of Dino Village. Despite her petite size, she possesses an insatiable appetite, consuming large amounts of food in a single sitting.

Being the youngest member, she eagerly learns from her fellow dinosaurs, making her a character deeply influenced by others in the village.

[TOBI] Pteranodon

A talkative inventor

Due to the endless chatter and stories, it's unclear whether Tobi is a genius or not. However, Tobi creates amazing inventions that his friends couldn't even imagine, surprising them all.

As a chatterbox with a cheerful personality, there's never a dull moment in Dino Village when Tobi and Kuang meet!

[GENIE] The versatile bus

A friend who listens well to the concerns of friends

'Genie' is a pleasant all-purpose bus that solves the problems of friends. In Dino Village, it serves as the friends' mode of transport and can freely transform into various forms to suit different situations.

Sometimes it becomes an airplane, sometimes a camper van, sometimes a submarine, and when friends need a stage for a performance, it transforms into a stage. Let's take a closer look at how far Genie's transformation ability goes!

Thank you.
